

Engagement Portal Provider HealthTrio named ACAP Preferred Vendor

TUCSON, Ariz., June 12, 2019 – HealthTrio, a leading Software-as-a-Service provider for the healthcare market, has been selected as a Gold-Level Preferred Vendor by the Association for Community Affiliated Plans (ACAP) after being endorsed by an ACAP health plan as a trusted, reliable, and upstanding healthcare service provider. Acceptance into this elite program requires endorsement by an ACAP organization and ACAP Board approval.

“Having partnered with HealthTrio for over eight years, CareOregon was happy to endorse HealthTrio as an ACAP Preferred Vendor. HealthTrio has helped us streamline critical parts of our operations through advanced provider tools and now we’re expanding that experience to our members,” said Eric Hunter, CEO, CareOregon. “The ability to customize and create individual and unique experiences for each user allows us to reach out to target groups at a lower cost and increases efficiencies and communications. Being able to offer all customers an online tool for communicating with us increases their engagement and not only benefits CareOregon, but also our partners and members in the community.”

ACAP is a national trade association that represents not-for-profit Safety Net Health Plans in 29 states, serving over 21 million enrollees, including almost half of all individuals enrolled in Medicaid managed care plans. The ACAP Preferred Vendor Program provides streamlined access to pre-qualified vendors in areas of interest specific to ACAP health plans and their membership. HealthTrio has qualified as a Preferred Vendor in the following areas of business: Digital Engagement Platforms, Member/Provider Communications Consulting and Software, and Web Portal/Software-as-a-Service (SaaS).

HealthTrio’s software-as-a-service online experience solutions improve collaboration and engagement between all the stakeholders involved in managing health at the individual and population levels. Their clients range from all membership sizes and across all lines of business, including Medicaid, Medicare, Commercial, Individual and Exchange, serving over 5 million members and over eight hundred- thousand providers.

“This collaboration between HealthTrio and ACAP is an exciting partnership, as our organizations share a common goal to improve the health and well-being of lower income and vulnerable populations and the communities in which they live,” said Wallen. “We have a long-standing history delivering solutions that adhere to regional-specific needs and federal-level compliance, such as NCQA Member Connections. Our extensive capabilities and engagement tools are critical to engaging the Medicaid and similar populations. As an ACAP Preferred vendor, we will expand our reach to serve a greater population, lowering costs, improving quality and benefiting the overall healthcare system.”

Later this year, HealthTrio will offer a webinar to ACAP’s not-for-profit Safety Net Health Plans. To receive updates on this and more, contact HealthTrio at learnmore@healthtrio.com.

About HealthTrio

HealthTrio, a leading Software-as-a-Service provider for the healthcare market, is dedicated to web-based solutions that improve experiences in value-based care, data integration, care coordination, and member and provider engagement. As the first to market a portal solution nearly twenty years ago, HealthTrio has been a longstanding leader in building elegant, advanced solutions, all purposefully designed to help simplify the intricate healthcare landscape. Drawing together systems and stakeholders across the care continuum, HealthTrio partners with Medicaid, Medicare, Commercial and provider-sponsored customers to deliver robust, modular solutions that increase transparency, communication and collaboration. HealthTrio's innovative technology solutions decrease costs while increasing access, supporting care and improving outcomes. To learn more, visit www.healthtrio.com.

About ACAP

The Association for Community Affiliated Plans (ACAP) is a national trade association which represents not-for-profit Safety Net Health Plans. Collectively, ACAP plans serve more than twenty million enrollees, representing nearly half of all individuals enrolled in Medicaid managed care plans. ACAP's mission is to strengthen not-for-profit Safety Net Health Plans in their work to improve the health of lower-income and vulnerable populations.
